

# AEROTCH ENGINEERING CO.

## Cast Aluminum Blower

### Overview

Model features a rugged, lightweight and rustproof cast aluminum housing making it ideal for demanding industrial applications. Model is available in direct drive to meet your requirements. Capacity selections may available up to 3,800 CFM and pressure selections up to 20" (SP w.g.)

### Features

- Split housing for maintenance ease
- Spark Resistant cast aluminum housing
- Spark Resistant Aluminum Wheel
- Blower Wheel both statically and dynamically balanced
- Rustproof
- Base Mount or Flange Mounted Configurations

### Typical Applications

- Rubber processing
- Food processing
- Chemical processing
- Fume control
- Dust control
- Combustion air for incinerators, ovens, furnaces, kilns and dryers
- Paper and printing machinery
- Cooling electronic equipment, motors, generators and transformers
- Textile machinery
- Light materials conveying
- Woodworking machinery
- Forced drying

### Major Industries

- Chemical
- Pulp and Paper
- Rubber
- Steel
- Glass
- Food
- Energy
- Textile
- Transportation
- Petrochemical
